

 **VOLANTE**  
SLIDING DOOR SYSTEM

## introduction

The benefits of sliding door storage systems over standard hinged doors are well known and have been utilised in Europe for many years. Their space saving characteristics, the ease of access they afford, and their sleek contemporary styling makes them a highly practical solution for the homes of today. The Volante sliding door system follows these principles, helping to solve your storage needs.

With contemporary styling, a wide choice of panel options, and the flexibility of a made to measure service, Volante sliding doors provide the ability to create unique designs tailored to your individual tastes. Incorporating technology from Astin, one of the leading companies in the field of sliding doors, the Volante system offers a smooth opening and closing action and comes with the added option of built-in soft closing for that extra touch of sophistication.

The following pages feature a selection of inspirational room sets to provide you with ideas and suggestions of just what is possible with the Volante sliding door system – choose from 6 standard panel configurations, over 40 stunning panel finish options, and a choice of matt aluminium or lacquered bronze frame finishes – we hope you are inspired to be creative.

Shown in Ferrara Oak finish

## standard internal storage system

Constructed from 18mm MFC with 8mm wooden fixed dowels. Available in Mussel or Ferrara Oak finish.

- 1 Bespoke single hanging robe - created using flyover shelf & hanging rail
- 2 Double hanging robe

- 3 Bespoke single hanging robe - created using flyover shelf & hanging rail
- 4 Linen press
- 5 Flyover shelf

The standard system also includes shelved robe units, single hanging robes & internal 3 drawer chests

See pages 32 & 33 for further details of available options

### Shelved Robe

2096mm high x 500mm deep - complete with 5 shelves, available in widths 400, 500 & 600mm.

### Linen Press

2096mm high x 500mm deep - supplied with 3 shelves & 3 single wall metal drawers - complete with drawer fronts. Available in widths 400, 500 & 600mm.

### Double Hanging Robe

2096mm high x 500mm deep - supplied with single shelf & 2 oval hanging rails in chrome finish - complete with matching end supports. Available in widths 400, 500, 600, 800, 900 & 1000mm\*

\* Bespoke widths up to 1200mm wide are also available.

### Single Hanging Robe

2096mm high x 500mm deep - supplied with single shelf & 1 oval hanging rail in chrome finish - complete with matching end supports. Available in widths 400, 500, 600, 800, 900 & 1000mm\*.

\* Bespoke widths up to 1200mm wide are also available.

### Mussel

### Ferrara Oak

### Internal 3 Drawer Chest

660mm high x 482mm deep - supplied with 3 single wall metal drawers\* - complete with drawer fronts. Available in widths - 400, 500 & 600mm.

\* Optional soft close can be added to the drawers.

### Bespoke Storage

Bespoke shelving & hanging storage can be created by the use of additional panels - internal vertical dividers, end panels & flyover shelves are available.

### 3-Tier Pull-out Shoe Rack

560mm high x 350mm wide x 480mm deep - available in left or right handed options, full extension opening with soft closing.

### 5-Tier Pull-out Shoe Rack

865mm high x 350mm wide x 480mm deep - available in left or right handed options, full extension opening with soft closing.

### Pull-down Hanging Rail

Enables the full height of the robe to be utilised as hanging space whilst still allowing easy access. Available to suit widths of 600-800mm & 800-1100mm.

### Pull-out Wire Baskets

152mm high x 460mm deep - full extension opening with soft closing. Available in widths - 400, 450, 500, 600, 800, 900 & 1000mm.

### Pull-out Swivel Mirror

Fitted inside the robe\*, the mirror can be pulled out & rotated, then neatly stored away after use.

\* For mirror to function correctly, its position relative to the tracks/doors is critical - see technical specs for further details.

### Hanging Rail

Available in oval or round with matching end supports, hanging rail can be supplied in chrome or brass plated finishes.

# internal storage systems

Internal carcass storage systems are available in premium or standard modular configurations.

Both are constructed using 18mm MFC board with 8mm wooden dowels, with the premium also featuring a matching 18mm MFC back panel. Bespoke shelving, and hanging storage over 1200mm wide can be achieved using the available additional panels.

Both systems are available in Mussel or Ferrara Oak finishes.

### HD LED Strip Light with PIR Sensor

This lighting unit can be mounted under a shelf, on the ceiling or to the wall.

With its built in PIR sensor, the movement of opening the door activates the light, providing an even spread of light across the inside of the cabinet.

Available in lengths - 400, 550, 850, 950 & 1150mm. Cool white LED colour.

### Flexible LED Strip Lighting

Complete with self-adhesive backing, these flexible LED strip lights can be positioned in a multitude of locations.

Shown here positioned behind the top track, the lighting unit is hidden from view but still provides optimum illumination of the robe internals.

Available in 2m lengths. Cool white LED colour.

### Quadra LED Light

Surface mounted to the underside of the cabinet or shelf, these slim Quadra lights are unobtrusive at only 8mm thick.

Installed here on the underside of the cabinet, these Quadra lights are connected to a motion sensor which is activated by the movement of the door opening.

Aluminium finish housing. Natural white LED colour.

### HD LED Square Surface Mounted Light

As an alternative to the Quadra light, these square HD LED lights are compact & stylish.

### HD LED Round Recessed/ Surface Mounted Light

Shown here recessed, this round HD LED lights provide a classic but still contemporary solution to in-cabinet lighting.

Both the square surface mounted & round recessed lights provide practical task lighting as well as striking spot lighting within the cabinet.

Stainless steel finish housing. Cool white LED colour.

Available in both cool white & warm white LED's. Aluminium finish housing.

### Motion Sensor Switch

This unobtrusive motion sensor can be connected to a range of lighting options & is activated by the movement of the door opening - ideal for wardrobes.

Aluminium finish housing - requires 20mm cut out, with a detection range of 0.5m - 2.5m.

### HD LED Drawer Light

Battery operated, this drawer mounted light is easily installed and has no wiring - perfect for internal wardrobe drawers.

Aluminium finish housing. Cool white colour, requires 4x AAA batteries.

## in-cabinet lighting

The use of lighting in cabinets not only serves to provide practical task lighting, but also helps to create ambient mood lighting within an environment.

The LED lighting featured here forms just a small part of our full lighting collection and serves to illustrate what is possible and how affective lighting can be when used correctly.
